## WORK EXPERIENCE

### Remote Mentor (Volunteer) Genesys Upskill, Enugu State

03/2023 - 06/2023

#### Achievements/Tasks

- Mentorship and training of young software developers transitioning into Tech.
- Assign weekly tasks and projects on topics covered.
- Achieved 70% students performance improvement on Html, CSS & JavaScript.

### Remote Intern Stutern Graduate Accelerator

08/2022 - 06/2023

Nigeria

#### Achievements/Tasks

- Collaborated with enhanced team of backend developers, product designers and data scientists to enhance my skills and capabilities in software development.
- Worked on multiple projects showcasing my abilities to collaborate and deliver impactful solutions.
- Achieved 90% results on assigned projects such as, Netflix clone, Instagram clone, Starwall application & Loanify app Software, etc.
- Achieved 90% performance improvement on use of software development tools such as Git, Html, React, Sass, JavaScript, Firebase, etc.

## EDUCATION

### Computer and Communications Engineering Abubakar Tafawa Balewa University Bauchi state.

04/2015 - 11/2021

Nigeria

## SKILLS

Html

CSS

SASS

JavaScript

React

Git

Firebase

Chakra UI

Redux

Material Ui

## PERSONAL PROJECTS

### Loanify Application Software (05/2023 - 06/2023)

- Collaboratively developed Loanify, a comprehensive loan management application designed for loan officers across various industries. Working closely with a talented team, including a backend developer and a data scientist, we created a powerful tool that streamlines loan management processes.

### Spotify Clone (03/2023 - 03/2023)

- Developed a fully functional Spotify Clone using React.js, replicating key features and design elements. Implemented user authentication, search, playlist management, and audio playback control. Ensured responsive UI and integrated Spotify's API for real-time data. Showcased strong frontend development skills and proficiency in React.js.

### Video Call App (04/2023 - 04/2023)

- Collaborated with a team on a video call app repository on GitHub. Contributed to the development of the application, actively participating in code reviews, issue tracking, and feature implementation. Demonstrated effective communication and collaboration skills while working in a remote team environment.
